

Beijer Ref UK & Ireland

Air Conditioning Application Engineer

Location - all considered

Beijer Ref UK & Ireland is a leading group of refrigeration and air conditioning wholesalers with 47 branch outlets and utilises two distribution centres for centralised stocks. There are 4 wholesalers within the group; Dean & Wood Ltd, HRP Ltd, RW Refrigeration Wholesale Ltd and DWG Refrigeration Wholesale Ltd (Ireland). Also within the group is our MHI (Mitsubishi Heavy Industries) air conditioning business, Beijer Ref Refrigerants and Beijer Ref Academy.

Are you from an air conditioning service or installation engineering background and have a good knowledge of systems and controls? Are you keen to work in an exciting, vibrant environment specialising in green energy solutions?

Come on a journey with us to develop a lasting career, providing you with inspiration and motivation, as we project our business to the next step.

We are recruiting for an Air Conditioning Application Engineer to join our technical team, based in one of our regional offices or Beijer Ref wholesale branches.

The Air Conditioning Application Engineer's main job function is to provide technical support to internal and external customers, including site visits.

Your main responsibilities will be to:

- Provide high-quality, consistent pre and after-sales product and technical support
- Select VRF equipment
- Provide quotations to a consistent and high-quality
- Take ownership of all technical and product management issues
- Assist in evaluation and introduction of new products, and be aware of product developments in the market
- Make product presentations and provide training
- Develop and maintain technical / selection tools

Full training will be provided on all product and service offerings.

You must have 5+ years of air conditioning experience, having refrigeration experience would also be desirable.

You will require the ability to travel when required, therefore, a full driving licence is required.

The ideal candidate will be:

- Self-motivated
- Energetic
- Driven
- Confident
- Studious
- Passionate

Skills required:

- Problem-solving
- Effective communication
- Good presentation skills

This is an excellent opportunity for someone looking to embark on a successful career with a market-leading business. Please apply, enclosing your current CV, and detail in the application how your experience and skill set will help you in this role.
